

OMG Center for Collaborative Learning

Evaluation, Strategic Research & Planning, Philanthropy & Capacity Building

October 2010

This E-Broadcast is a service of the OMG Center for Collaborative Learning as part of the Pew Fund Capacity Building Program. It provides useful resources and information on capacity building topics, as well as information on upcoming deadlines for potential and current Pew Fund Capacity Building awardees.

Resources for building capacity

Increasing organizational capacity is critically important to the delivery of health and human services, yet finding funds to support such work can be challenging. Over the past five years, the Pew Fund Capacity Building Program has responded to this need among area nonprofits by awarding over 100 capacity building grants. This E-Broadcast provides some additional resources and tools for locating opportunities to fund or offset the costs of projects that build nonprofit capacity.
